This guide will help you with pre-awakening or after waking up gears and stats. Obviously, I've considered post-awakening with the most detailed because many people always have stat questions when they wake up. While pre-awakening is much easier compared to post-awakening I feel that this will also help a lot of OS Lancer players too, since I know it not so long ago, they J GTA v Funny Moments: Indian KFC Shipping Shenanigans Ramen Loaded 1 month ago 2020-09-06 Many people suffered in the making of this movie roblox game in 51 seconds Ramen Loaded 1 month ago 2020-08-23 more broken than an orphan having an incest fetish Warbow Solo Kingdom to Ramen Loaded 2 months ago 2020-08-14 why my downloads just noet now wif Lancer Solo NSoET #3 Aura Kingdom to Ramen Loaded 2 months ago 2020-08-08 I ate really spicy meat stick and now my stomach aches S20 Lancer (Garrote Only) Dungeons / Nightmares / Revelations Boss Compilation Aura Kingdom to Ramen uploaded 2 months ago 2020-07-30 TIMESTAMPS IN DESCRIPTION: YOUTUBE DO BE BLOCK IN SOME COUNTRIES Although. Honestly, I would have done 1-15, but I didn't do it because I didn't want to waste my precious time on a 1-15 guitar solo, which would probably take more than half an hour. Obviously, many mistakes have been made in this perspective (especially F1, holy shit). Although, a dark guitar build literally just has just one dark element of skill most of the time I'm just using shreds and then spamming dark skills afterwards. The guitar's total damage to ntl. is meh. Not good, but not bad. The fact I didn't have any pots for the guitar as well as the bill. Warbow can do a lot of damage too! My DMG through floors 1-5 was absolute rubbish and I missed all my rituals on F2 too. Chests were garbage, too. Garrote didn't even shoot them on the lower and upper floors. Overall, average mileage. Lancer Guide: The Solo Nightmare Crying Thunder Dragon King - AuraKingdom.to Ramen Uploaded 1 year ago 2018-11-24 The first time a cry solo recorded this some time in early November. So I'm really late to get into this. Got 6 minutes, slowly killing mobs at the beginning and running around like chicken on spiders rather than rushing to the boss. Obviously I made a lot of mistakes in that run. If you have a complete ATK SPD history finished, you can roll your Eidons to 24% DMG and 45% Dark Skills DMG. Because of the lancer ATK SPD cover is 72%, which you can cover with 50% SPD // Stories / and 4% ATK SPD secret stone. Your elementary eidons should also be rerolled into 45 Ele DMG and 45 Dark Skills DMG. The eidon you choose for the item also matters too. Ex: Idunn for Lightning ele bosses for F12 NTL, Kusanagi in NSOET, etc. Rotation for subclass should be charged Dragon Slash or charged stun. You should also roll up your secret stones most preferably 4% DMG Deal and 6/7/8% Ele DMG. You can only get 4% DMG Deal with Advanced Secret Stone Randomizer / If you don't have it, just go for 3% DMG Deal with regular Secret Stone Randomizer instead until you get Advanced ones. (NOTE) For PS Lancer players, it's best to roll another set of SS with the new 41-50 ST floors coming out. There will be a new acc kit with 150% CRIT DMG overcap (?), so just roll another set of SS with CRIT DMG 4% DMG Deal. Obviously I feel like I left some things to explain. So if you notice something, write a comment about it and I'll leave the answer. Nightmare Time Library Solo F1-15 - Aura Kingdom.to Nightmare Aidolone Tests Star Trek - Aura Kingdom.to Ramen Loaded 1 year ago 2018-11-18 Running a new Way Nightmare SoET, which was released last Thursday during maintenance. It was actually my first time running this way, I'll be honest. I expected to die a lot more from actual attacks, not from a mistake, and in order to be a lot harder. Still worth 3% PEN though. Guitar Solo Silent Castle (Hell) Aura Kingdom to S10 Lancer Nightmare Boss Kill Compilation (en) Aura Kingdom.to Ramen Loaded 1 year ago 2018-10-27 Here's another compilation, but this time it's nightmare bosses. I turned on the PT clips as well through the floors 10-15, because if I turned on the solo, this video would be too long and I don't want it to be like 9 minutes. Especially if I were to include NSoET bosses, then this video would definitely take much longer than 9 minutes. Song: ONE OK ROCK - Nothing Helps Ign: Squippy Stats (Outside the Dungeon); Nightmare SoET #3 Lancer POV - Aura Kingdom to Ramen Loaded 1 year ago 2018-10-21 Here's a much faster run of my SoET nightmare. Little mistakes were made, for example, forgetting to switch to my Holy Elementary eidon on Michael. The only one who managed to die in this run is Warbow, who was in range and still died somehow. I was the only Lancer so that probably made this launch a lot slower than it should have been. If you don't understand either, I changed my name to Lancer. IGN: Squippy Nightmare Time Library F15 Solo Burn - Aura Kingdom.to Solo Nightmare Time Library F13-15 - Lancer (en) Aura Kingdom.to Ramen Loaded 2 years ago 2018-09-30 13-15F: Players: DMG -100%, 1012F TLuff deb (no typo, the same applies to normal TL13 - can Error) Monsters: Strength 135% (bosses 155), DMG deal 50%, DMG taken -10%, DEF: 37722-38690 70% It's only my second time doing it, so I still have plenty of room for improvement. I could have run this at a much faster time if I rerolled my 4% DMG SS to have 3% ACC as one of the stats, but unfortunately my RNG isn't good enough, so I'm not risking at the moment. Which leads me to use eidon with precision to enhance the skills of the entire mileage. Fun. On F14, I messed up a lot with mechanics and forgot to turn off my dark elementary mountain. F15, I couldn't lure him to the totem for the first time, which led to my death. I also kept forgetting the red run every second MAC through. I forgot to take the bag off. I also get tired of making these NTL vids. Awakening Guitar Class Aura Kingdom.to Ramen Loaded 2 years ago 2018-09-30 Awakening recently released Artist (Guitar) class in Aura Kingdom PS. It was also 5am in the morning and you can hear me furious in BG. If we hadn't made mistakes, we could have got the sub 5 minutes. Mistakes: 1. Morrigan death and carpets. 2. Demeter carpets and healing. 3. LAG 4. Embarrassed on which eidon we killed in the first place. 5. Switch Eidolon elementary list of traffic locks. 6. Aides death and carpets. 7. Cerberus stun. 8. Blue bird tomado and not having a storm ele eidon up. 9. Byakko carpet impact back and not storm ele eidon up. 10. Invisible carpets. 11. Bullo lift AoE. Nightmare Time Library Floors 1-15 (en) No Lancer Warbow POV Ramen Loaded 2 years ago 2018-09-03 When find out who will come to Nightmare, we ended up with 2 sorcerers at first. Then one of the sorcerers had a shit connection, so we replaced Chris when we were in the middle of NSoET. We managed to finish NSoET and switched to NTL. So I decided to record Lancer-less run floors 1-15 with Noah purposefully healing Taloc on F12 and healing Ruth on F14 hence 19 minutes.
